THE yellow journals have killed

ACQUINTANCE again some more, but it

is feared he will not stay dead.

If the Democratic party is reorgan-

ized, Mr. BRYAN will most likely be

the head and tail of the thing, Bryan-

ism making up the middle.

WITH the election over and four

more years of prosperity assured, THE

LEADER will for some time devote

more space to news and less to polit-

ics.

At the recent election 1,049,121

votes were cast in Ohio, and EUGENE

DENNS got just 4,835 of them. That is,

there's only one fool to every two-

hundred-and-odd voters in that state.

OOM PAUL KRUGER has been telling

the electric Frenchmen that the Boers

will fight until the last woman and

child is killed. The world heard just

such boasts from a few hot-headed

people in this country some forty years

ago.

MR. BRYAN says he still believes in

the principles set forth in the Chicago

platform, and that he "will continue

to defend them, believing the Ameri-

can people will yet see the necessity

for the repudiation of Republicanism."

Well, WILLIE, it doesn't look very

much like they were going to substi-

tute Bryanism for it, anyway.

CHIAKRETTES must go. An order has

gone from the American Tobacco Com-

pany to all dealers in the state of Iowa

to at once ship out of the state their

entire stock of cigarettes and cigarette

paper. The order is in conformity to

a recent decision of the United States

Supreme Court.

Cigarette smoking is also forbidden

in many of the offices of the City Hall

in Cincinnati, and several of the big

railway companies will not employ

persons who use the offensive things.

Coming nearer home, a number of

Mayville dealers will discontinue their

sale at the beginning of the new year.

From 224 illustrations in 1894 to over 1,000 in 1900 are the figures which denote the numerical growth and development of the pictorial features in The Ladies' Home Journal in six years. This 400 per cent. increase in numbers is rather dwarfed by the fact that nearly 1,000 per cent. more space is now given to pictures than six years ago, and that the quality, or artistic value of the illustrations has improved beyond comparison. A few years ago magazine making was thought by some to have attained a degree of perfection that precluded further advancement, but it seems to have been in its infancy. The reading public now insists upon illustrations, and in meeting that demand it is safe to say that the pictures printed in The Ladies' Home Journal in 1900 exceed in number, size, quality and cost those published in all the leading magazines ten years ago.

Useful Household Articles

The attention of every housekeeper in this section is called to the articles named below, all of which are used almost every day in the year. They are the best that can be bought anywhere, and when the Frank Owens Hardware Co. recommends an article you know it's the best that money will buy:

Universal Food Choppers
Enterprise Meat Cutters
Enterprise Lard Presses
Butcher Knives,
Fire Shovels, Pokers,
Claws, Fire Guards,
Scoop Shovels,
Axes and Axhandles.

The prices are too low to mention in print—there are no figures small enough to fit the prices we have marked on them. But the smallness of the price does not diminish the value of the article at all.

POSTAL AFFAIRS.

Fourth Assistant Postmaster General Bristol Makes Suggestions in His Annual Report.

LOOKOUT TOWERS IN POST OFFICES.

There Were Over 15,000 Appointments of Postmasters Made During the Past Fiscal Year.

On June 30 there were 76,088 Post Offices, as follows: First Class, 194; Second, 852; Third, 3,871; Fourth, 72,455.

Washington, Nov. 26.—Fourth Assistant Postmaster General John L. Brown in his annual report recommends an addition to the interstate commerce law prohibiting telegraph and express companies or their employees from advertising or selling green goods or lottery swindles or any other scheme carried on partly by mail and partly by common carrier and in violation of the postal laws. Other recommendations urged are as follows:

Authorizing post office inspectors to take out search warrants whenever necessary.

Payment of incidental expenses incurred by local officers or others in the arrest, detention and keeping of prisoners violating postal laws until transferred to the United States marshal's custody.

Number of Postmasters Appointed. Construction of inspectors' lookout towers in post offices whenever deemed necessary by the postmaster general, and prohibition of loose pouching of circulars, calendars and other small pieces of mail matter frequently slipping into large unscaled envelopes in transit.

There were 15,000 appointments of postmasters made during the past fiscal year, 14,435 being of the fourth class and 707 being presidential, an increase of 538 in all over last year. There also has been an increase in the number of resignations, especially of the fourth-class postmasters. Fewer removals for irregularities were made than last year.

Corporation Post Offices.

A vigorous effort has been made to suppress post offices conducted throughout the country for the sole benefit of some corporation, nursery company, patent medicine firm or other institution whose operations deprive the government of its legitimate revenues. The company or corporation usually has some one connected with it appointed postmaster, and thus gets the advantage of the post offices or the salary and allowances of the postmaster. These institutions sometimes have derived thousands of dollars of revenue from the government which virtually amounted to a commission or discount on their postal business.

Resignations and Deaths.

There were 47 resignations and 45 deaths of presidential postmasters, and 919 deaths and 8,013 resignations of fourth-class postmasters. In June, last, the number of post offices was 76,688, as follows: First class, 194; second, 852; third, 3,871; fourth, 72,455.

DEATH RELIEVED HER.

Mrs. Frances Milford, Who Was Forced to Drink Carbolic Acid by Her Stepbrother, Is Dead.

Easton, Pa., Nov. 26.—Mrs. Frances Milford, whom Nelson Skinner, of Middletown, N. Y., attempted to murder in Easton early Thursday morning by forcing carbolic acid down her throat, died Sunday. Shortly before her death she asked the hospital authorities to notify Thomas A. Dugan, of Auburn, N. Y. After informing Mrs. Milford to swallow carbolic acid, Skinner drank a quantity of the acid and died shortly afterward. Skinner was Mrs. Milford's stepbrother.

Three-German Dilemma.

Constantinople, Nov. 26.—A difficulty has arisen between Germany and Turkey. The Ottoman government objects to Germany using Far San Island, in the Aegean Sea, as a post station, and wishes to establish there a Turkish depot accessible to all the powers. Germany, however, insists that she will not abandon the island.

Will Fight a Duel.

Havana, Nov. 26.—It is said that Gen. Rodriguez, mayor of Havana, has challenged Senor San Miguel, editor of La Jirafa, to fight a duel in consequence of an alleged libelous article attacking the integrity of the mayor's office.

British Steamer Stranded.

Lewes, Del., Nov. 26.—The British steamer Margaretta, of Baltimore, was in ballast from Malta for Delaware Breakwater for orders, stranded at 3 o'clock Sunday morning directly opposite the lighthouse, and in a saving station, near Ocean City, Md.

Killed a Girl.

Lincoln, Ill., Nov. 26.—Earl Brackett, aged 14, shot in the brain and almost instantly killed Leona Matthei, aged 11. He did not know a rifle he was examining was loaded.

THE BANKRUPTCY ACT.

E. C. Brandenburg, in Charge of Matters, Makes His Annual Report on Its Operation.

Washington, Nov. 26.—E. C. Brandenburg, in charge of bankruptcy matters, has made a report to the attorney general on the operation of the bankruptcy act of July 1, 1906. The report says, with reference to voluntary cases, that advantages are being taken of the law by men of all classes and in all walks of life, and in every section of the country.

The statistics showing the greatest number of petitions filed during the year are Illinois, with 3,008; New Jersey, 3,007; Iowa, 992; Ohio, 837; Minnesota, 845; and Pennsylvania, 809.

Grand Total of Petitions.

The smallest number of voluntary petitions were filed in the following states: Nevada, 41; Delaware and Wyoming, 19 each; Idaho, 30; South Carolina, 37; Oklahoma, 39; Florida, 67; and Rhode Island, 69.

The grand total of petitions filed in the United States for the period ending September 30, 1906, is 20,128, exclusive of those for the western district of Louisiana, the district of Alaska, and for half of the year for the southern district of Georgia, New Jersey, the eastern district of North Carolina, the western district of Tennessee, and the district of Virginia, from which semi-annual reports were not received.

Number of Cases Adjudicated.

From the clerk's report it appears that, of the voluntary petitions, all were adjudicated except 237, in which the petitions were dismissed, and that discharges were rendered in 71 cases. Compulsions were confirmed in 206 cases.

The liabilities in 19,140 voluntary cases reported by the clerk amounted to \$29,479,132, while the total amount of assets scheduled in these cases was \$33,093,771.

PASSED A QUIET DAY.

The Car Sleeps Well, and Its General Condition and Strength Are Satisfactory.

St. Petersburg, Nov. 26.—The following bulletin was issued Monday morning at Livadia:

"The car passed a quiet day Sunday. At 3 o'clock Sunday afternoon his temperature rose to 103.4. The pulse was 88."

"At 9 o'clock in the evening the temperature was 102.3 and the pulse 80."

"His majesty slept well during the night. Monday morning his general condition and strength were satisfactory. Temperature 99.5; pulse 75. No complications whatever have been observed."

His Condition Is Critical.

Berlin, Nov. 26.—The following special dispatch, dated St. Petersburg, November 25, 3:49 a. m., has been received here:

"It is persistently rumored in St. Petersburg that the condition of Emperor Nicholas is critical. Well informed people here declare that the disease has made far greater progress than the czar's physicians have publicly admitted. A fatal issue is now gravely feared."

BODIES IN THE SNOW.

It Is Thought 20 Passengers of the Wrecked Steamer St. Olaf Died From Cold and Starvation.

Quebec, Nov. 26.—The searching party which left seven islands on Saturday afternoon to rescue any of the passengers or crew of the wrecked steamer St. Olaf who might have reached land returned Sunday evening. They report having found only one body, that of Miss Paig, buried in the snow and ice. The general opinion among seafaring men is that the disaster occurred during the night of Wednesday, and that Miss Paig was stricken in night robes, and that 26 passengers succeeded in landing only to die from cold and starvation on Bonaville Island, and that their bodies will be found under snow, which is three feet deep there. Another party of searchers went out Monday to look for bodies in the snow.

THE MYSTERY SOLVED.

Lieut. Solon Arnold, Who Disappeared Last Thursday, Found in Seattle, Stripped and Hobbled.

Seattle, Wash., Nov. 26.—The mystery as to the whereabouts of Lieut. Solon Arnold, U. S. N., who was sent from Port Orchard last Thursday to inspect government goods at Tacoma, has been solved. He was found in Bonaville Island, and that his body was found, temporarily at least. His condition is reported serious. The fact that he was clad in rough clothes, had bruises on his back and had been stripped and robbed of his valuables gives rise to the theory that he fell into the hands of robbers.

Secretary Taft's Home-Coming.

St. Augustine, Fla., Nov. 26.—The steamer Kanawha, with Secretary of War Root and Gov. Gen. Wood, of Cuba, left this port all day, expecting to cross the bar Sunday evening, but had to give up and set sail for Jacksonville, whence Secretary Root will go by rail to Washington. Gov. Gen. Wood will join Mrs. Wood and the children here and leave for Havana with them Monday.

Pope's Death News.

New York, Nov. 26.—A Rome cable to the Journal says: "In all certain, official and otherwise, it was certain Sunday that the life of Leo XIII. hangs literally by a single thread, and that his death may be expected at any moment."

A FINAL MEETING.

The Diplomatic Body Has Agreed Upon the Basis of the Preliminary Treaty.

THE TERMS OF SETTLEMENT SECRET.

Approval of the Respective Governments Must Be Secured Before Negotiations Begin With China.

Punishment of Guilty, Indemnity, Retention of Legation Guards and Occupation of Certain Territory Will Be Required.

Peking, Saturday, Nov. 24.—The diplomatic body held a final meeting this morning and agreed upon the terms of the preliminary treaty.

Nothing now remains except to secure the approval of the respective governments before definite negotiations with the Chinese peace commissioners are begun. The precise terms of the settlement have not yet been made public here, but it is believed outside the diplomatic corps that the main points are in substantial agreement with those contained in the French note to the powers, namely: punishment for the guilty, indemnity to governments and individuals, retention of strong legation guards and the occupation of certain places between Peking and Taku.

Bandits Dispersed By Americans.

A party of American cavalry went Saturday to disperse a band of bandits in a village 16 miles from Peking. The village was found strongly fortified, but the Americans attacked and captured it, killing seven Chinese. A secret order from Sun Pu to the provincial viceroys and governors orders them to cease the manufacture of modern arms and to revert to the old type of weapons, because modern arms have proved useless against the foreigners."

RUSSIA'S DECISION.

The Railway Line Will Be Held Until the Troops Are Withdrawn From Chi Li Province.

BATTLE ON PANAY ISLAND.

Three Americans Were Killed—The Insurgents Lost 103 Dead.

All Told.

Manila, Nov. 26.—Particulars have just been received from Iloilo of the battle, October 30, at Bugason, Island of Panay, when 200 Bolanos and 30 riflemen attacked the Americans, who lost three killed—Lieut. L. M. Koons, Sergt. Kitchen and Corp. Burns, all of Company F, 4th Infantry.

German Expeditions.

"The German expedition to K'ienan is encountering no opposition. The other expeditions which the German government has dispatched to harass the neighborhood of Peking are mainly expeditions in search of loot. They are indirectly directed by the Germans as important military operations."

The Shanghai Correspondent of the Times.

The Shanghai correspondent of the Times says that the United States has refused to join in the demand for the execution of the princes and other high officials.

The Request Denied.

London, Nov. 26.—"We understand," says the Daily Express, "that Lord Roberts recently requested the government to send 20,000 regulars to South Africa to relieve the same number still in the field, but that his request was declined on the score of expense."

Died of Typhoid Fever.

Chicago, Nov. 26.—George Scott, of the dry good firms of Carson, Pirie, Scott & Co., died Sunday night of typhoid fever. Mr. Scott was 71 years of age.

Prof. Oliver Dies Suddenly.

Annapolis, Md., Nov. 26.—Marshall Oliver, a professor in the navy, residing at the naval academy, died very suddenly late Sunday afternoon of apoplexy.

KRUGER'S SUNDAY IN PARIS.

He, With His Family, Observed the Sabbath in Accordance With the Customs of His Fatherland.

Paris, Nov. 26.—Mr. Kruger passed Sunday with his family at the Hotel Serbie, observing the Sabbath in accordance with the customs of his Fatherland. His apartments were closed to visitors, and he remained with them, indulging himself in perfect rest.

Although the boulevards were alive to late hour Saturday night with merry-makers and singing songs the Hotel Serbie was cordoned and the revelers did not disturb his rest.

Held Private Services.

Sunday morning found him quite recovered from the fatigue. After an early breakfast he conferred with Dr. Leyds. There being no church of his own denomination in Paris, he held a private service in his apartments, surrounded by his entourage. Mr. Kruger read a portion of Scripture, and a member of his suite read a sermon prepared in advance. The Boer statesman expressed a desire to have an organ to assist the singing, but this could not be obtained.

Cheers For Mr. Kruger.

At an early hour free circulation was resumed in the streets about the hotel where only guardians, two policemen, stood on either side of the principal entrance. The number of passers-by was not greater than the ordinary Sunday morning. Towards 10 p. m., however, pedestrians increased and along the boulevard came 100 shouting and singing boys. Their adulation increased the enthusiasm which was rapidly worked up, and the streets began to fill. Cheers for Mr. Kruger began and the police immediately established a cordons about the hotel. Several companies of republican guards quickly arrived.

Responded to Cries and Plaudits.

Responding to cries and plaudits, Mr. Kruger came to the front of the balcony, accompanied by his wife and two daughters.

WILLING TO DO HIS PART.

Paris, Nov. 26.—Much excitement was occasioned in this vicinity Sunday by a report that the skeleton of a young girl, presumably 12 or 13 years of age, had been found in a well in the French forest of Fontainebleau, near Paris, about a mile north of here. In April of last year the dead body of Jane Brunot was found in this same well. Mrs. Brunot was murdered by two of her nephews who are now serving life sentences in the Chester penitentiary.

Sunday the work of cleaning the well out was commenced and the bottom was found the almost perfect skeleton of a young girl. A bracelet badly waterlogged was found, as was also a ring and a key. The deepest mystery surrounds the gruesome find, but it is believed the two young men now serving life sentences may be able to throw some light on the case and an effort will be made to have them confess.

It Is Believed.

It is believed that the skeleton found is that of a young girl who disappeared from her home in Indiana two years ago during the visit of Mrs. Brunot's two nephews to that state.

Commissioner Wilson Critically Ill.

Washington, Nov. 26.—The condition of Hon. George W. Wilson, commissioner of internal revenue, was very critical Sunday night. He was weaker than on Saturday, but still retains consciousness. Mrs. Wilson, who was absent from the city when the crisis occurred, has returned to the city with her daughter, Miss Pardner.

To Build Railroads.

St. Petersburg, Nov. 26.—Private dispatches received here say that companies have been organized at Kiev, with the participation of British capital, to build railroads from Ibranki to Constantinople, and from Kiev to Zlobin.

Dynamiter Sentenced.

LISTEN, FARMERS!

The Ledger Offers You a Proposition That is Decidedly Fair.

A farmer in Wisconsin says he has adopted a plan of advertising in his home paper which has saved him much valuable time and brought handsome returns for the money invested. He says—

"When I am ready to sell anything I insert a little advertisement in the local papers telling what I have to sell, and if I live stock, how many of each, and when they will be ready to ship, and the result has been that buyers are right after me, either personally or by mail, and naturally I get the highest price."

The Ledger has such faith in the efficacy of publicity that it submits this proposition—

If any farmer in Mason or adjoining counties—either in Kentucky or Ohio—has a farm or stock for sale, the advertisement will be inserted in The Ledger for one month if necessary.

If at the end of that time no purchaser can be found, the advertisement will cost nothing.

If a purchaser is found, the seller is to pay for the advertisement at regular rates.

Suppose you try it.

8000—Record—8000.

The readers of this paper will be pleased to learn that there is at least one great disease that has been able to cure in all its stages and that is catarrh. Little's Catarrh Cure is the only positive cure now known, to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Little's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and curing the patient safely by building up the constitution and assisting nature in her work. The proposition here is much fairer to the consumer than they offer one. Remember Dollars for any case that is fully cured. Send for list of testimonials. Address—
